

SUMMER STAYS IN COPENHAGEN

PROPOSED BY TARRY LAURENSIA

Hi, I'm Tarry!

I'm a Travel & Lifestyle Content Creator & UGC Creator.

I'll be traveling across Europe during July–August 2026, creating travel, lifestyle, hotel, and destination-focused content throughout the trip. Here are some **highlights** from my upcoming journey:

- **Malta** — A hidden Mediterranean gem known for its crystal-clear coastline, luxury seaside stays, charming old towns, and summer island lifestyle.
- **Paris** — My 5th visit to Paris, this time focusing more on cafés, restaurants, boutique hotels, château escapes, and curated local experiences beyond the usual tourist spots.
- **Switzerland** — Hiking to Oeschinensee and capturing nature, alpine scenery, and outdoor lifestyle content.
- **Copenhagen** — A design-forward Scandinavian capital known for its colorful waterfronts, cozy cafés, wellness culture, stylish boutique stays, and slow summer lifestyle
 - Other destinations — Oslo, Stockholm, Finland and other parts of Central Europe.

I'd love to explore a potential content creation collaboration or sponsored content partnership with **your hotel**. More details can be found on the next pages.

Why Work With Me?

- **Content You Can Repurpose**

Every deliverable is created as brand-ready content — professionally shot photos and videos that can be repurposed across social media, websites, digital campaigns, and marketing materials. More than just a post, it's a long-term visual asset for your brand.

- **Travel Is Becoming Part of Modern Lifestyle**

As international travel continues to grow among Indonesian travelers, premium travel essentials are becoming increasingly relevant to a new generation of modern and experience-driven consumers. As an active traveler with upcoming international travel plans, I create content that naturally connects with this audience.

- **The Indonesian Market Is On the Move**

Indonesia is entering the global top 15 outbound travel markets, fuelled by a rising middle class actively exploring beyond Asia. Europe is a fast-growing aspirational destination for this segment — and my audience sits right at that intersection. (Source: Visa Asia Pacific Travel Report, 2025 | BPS Statistics Indonesia, 2024)

- **Content Designed Beyond Organic Reach**

I'm open to content licensing, boosted campaigns, and paid usage — allowing brands to maximize content performance beyond my own platforms and turn UGC into a broader marketing asset.

- **Premium & Story-Driven Visual Approach**

My content focuses on clean aesthetics, thoughtful details, and immersive storytelling that aligns naturally with premium lifestyle and travel brands.

- **Strategy Behind Every Frame**

With 10+ years of experience in branding, digital marketing, and social media, I create content that balances aesthetics, storytelling, and brand value — designed not only to look good, but also to connect with the right audience.
